1.0 BRAND FOUNDATIONS

PURPOSE / MISSION

Enable both men and women in Australia to live at their peak performance and realise their full potential through:

1. Peptides
2. Hormones
3. Blood analysis
4. Nutrition
5. Coaching

VISION (3-5 YEARS)

To be Australia's leading AI-driven health company, integrating all biomarker data (Whoop, Apple Health, lab results) into one platform that delivers customised, real-time health solutions. Recognised nationwide for innovation, service, and results.

CORE VALUES

- ▶ **Honesty**
Transparent advice and treatment.
- ▶ **Care**
Clients' health above profit.
- ▶ **Cutting-edge**
Always ahead in science and technology.
- ▶ **Exceptional standards**
In service, results, and professionalism.

BRAND PROMISE

We will always serve your best health interests above profit.

POSITIONING

Like BioV8, but faster, more personalised, more tech-integrated. Clinical precision meets AI-driven performance coaching.

1.1 AUDIENCE & MARKET

PRIMARY AUDIENCE

1. Age: 30-60
2. Affluent, professional high achievers
3. Physically fit or driven to improve
4. Time-poor, want clear direction without having to think
5. Tech-savvy

SECONDARY AUDIENCE

Gym-goers and performance-focused individuals seeking health optimisation.

EMOTIONAL GOAL

When they interact with PeakSpan, they should feel **strong, beautiful, and in control**.

COMMON OBJECTIONS

1. Concern about quality and safety of compounds
2. Fear of unregulated or low-quality overseas products
Response: Compounded in Australia, under strict quality controls.

PAIN POINTS

1. Lack of time to research or manage health themselves
2. Fatigue from balancing work, fitness, and life demands
3. Confusion from conflicting health information

1.2

BRAND PERSONALITY & TONE

PERSONALITY KEYWORDS

AMBITIOUS

DRIVEN

MOTIVATED

PERFORMANCE

AI-TECH

TONE OF VOICE

Formal and direct

Clinical and serious, but inspiring

No hype words

No casual slang

Every statement must be factually correct and TGA-compliant

HUMOUR

Subtle, minimal – only if it supports the brand voice.

CONSISTENCY

The tone remains identical across website, social, email, and print.

2.0 BRAND MARK

The primary logo must be treated as an unified unit, however the Logo Symbol could be used seperately from the logo depending on the usage. The proportion and spacing of the elements should not be altered in anyway. Digital files are available for all configurations. One of these approved files should always be used when applying the logo.

2.1 THE KEY ELEMENTS

Visual identity has two key elements. The symbol, and logotype. Both elements when applied consistently and in the correct way, will create a powerful and distinctive mark for PeakSpan Health.

2.2

LOGO STRUCTURE & CONFIGURATION

There are three versions of the PeakSpan Health Corporate Signature – **The default configuration of the logo should consist of both the key elements mentioned in 1.1.**

Choose the Corporate Signature that best fits the physical layout in which it will be used. No matter which version you choose, you may not alter or modify it in any way other than re-sizing proportionately. It is important to always display these Signatures, as shown in this guide, as they are.

Version 1: Symbol Only

Version 2: Full logo stacked

Version 3: Full logo horizontal

2.3 LOGO MINIMUM CLEAR SPACE

The brand mark for PeakSpan Health is always surrounded by a minimum clear space area which must remain free from other elements (type and graphics and artwork edges).

The minimum clear space area is referred to the X height of the “Logo Symbol” mentioned in the brand mark. The clear space area is proportional at all sizes of brand mark.

2.4

LOGO MINIMUM SIZE FOR PRINT AND DIGITAL

Minimum size for print applications and on screen applications are different. The minimum size has been set according to the visibility of the logotype. Logo should not be used in a smaller scale than the given measurement for print and on screen.

On occasion, the minimum size may be the right choice for challenging production processes such as business cards. Where this is the case, proofing stages will help to determine the most suitable version for optimum reproduction of the brand mark.

PRINT

Version 1

Width : 14 mm
Height : 14 mm

Version 2

Width : 23 mm
Height : 21 mm

Version 3

Width : 44 mm
Height : 13 mm

ON SCREEN

Version 1

Width : 32 px
Height : 32 px

Version 2

Width : 58 px
Height : 52 px

Version 3

Width : 125 px
Height : 38 px

2.5

LOGO POSITIONING

While choosing the correct brand mark size, the size you choose depends on the size and format of the paper dimension, and the requirement.

- ▶ Standard positioning for documents for the horizontal logo version will be on a corner of the paper space.
- ▶ Standard positioning for documents for the stacked logo version will be on the top middle or bottom middle of the paper space.
- ▶ Maintain a minimum clear space of 1x height of the logo at the edges of the paper space at corners.

2.6 **INCORRECT USAGE OF LOGO**

To protect the value of the PeakSpan Health corporate identity, it is important to use the PeakSpan Health logos as they are presented in these guidelines without modification and in full compliance with the following:

Do not alter the logo in any way. Do not animate, colour, rotate, skew, or apply effects to the logo. Do not separate the elements. Never attempt to create the logo yourself, change the font, or alter the size or proportions.

Don't rotate or change the orientation of the logo.

Don't stretch or distort while scaling the logo.

Don't alter the colours of the logo.

Don't re-arrange any portion of the logo

Don't use the logo smaller than the minimum size.

Don't apply any outlines / effects

Don't alter the transparency of the logo

Don't crop the logo

Don't use the logotype without the symbol. (The symbol can be used alone)

Don't flip / mirror the logo

Don't retype the logotype in your own fonts

Don't add other visual elements

3.0

TYPEFACES & TYPESETTING

Typography is another key element of PeakSpan Health brand communications in print, web, mobile and video environments. As with graphical elements, our typography reflects the dynamic yet approachable personality of the PeakSpan Health brand. These typefaces are to be used when producing communications materials in any media.

Avenir Next Regular uppercase is to be used for all buttons on the website.

3.1

TYPOGRAPHY IN PRACTICE

PeakSpan
HEALTH

LOREM IPSUM

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum.

LOREM IPSUM

LOREM IPSUM

1. Clean and spacious
2. White or light grey backgrounds for most sections
3. Strategic pops of brand blue/teal in icons, headings, and CTAs
4. Subtle futuristic cues: fine-line grid overlays, light gradients, minimal iconography
5. Use colour sparingly to draw attention to CTAs and important data

4.0

COLOUR PALETTE & COLOUR CODES

Our corporate colours help convey our brand personality, which is dynamic yet approachable. Consistent use of these colours is vital to our corporate identity. Please use only the colour palette and the colour formulas and percentages as specified in this document when displaying the PeakSpan Health logos and designing other visual elements for communications materials, whether in print or electronic media.

The CMYK references should be used to match for correct reproduction of the primary colours by a professional printer. The RGB color values / hexa codes should be the master colour reference for digital colour matching. Process CMYK colours should be used for standard printing.

On-screen colour RGB and hexadecimal colour breakdowns have been selected for on-screen applications / shading and gradients.

HERO BLUE	STEEL BLUE	TEAL	DARK NAVY	WHITE / LIGHT GREY	METALLIC SILVER GRADIENT
Process C67 M26 Y0 K0	Process C95 M66 Y22 K0	Process C61 M0 Y23 K0	Process C84 M73 Y57 K71	Process C3 M1 Y1 K0	Web HEX #C0C5CC
Screen R24 G164 B252	Screen R14 G90 B139	Screen R0 G225 B222	Screen R19 G28 B39	Screen R244 G246 B248	↓ #E5E8EC
Web HEX #18a4fc	Web HEX #0e5a8b	Web HEX #00e1de	Web HEX #131c27	Web HEX #f4f6f8	

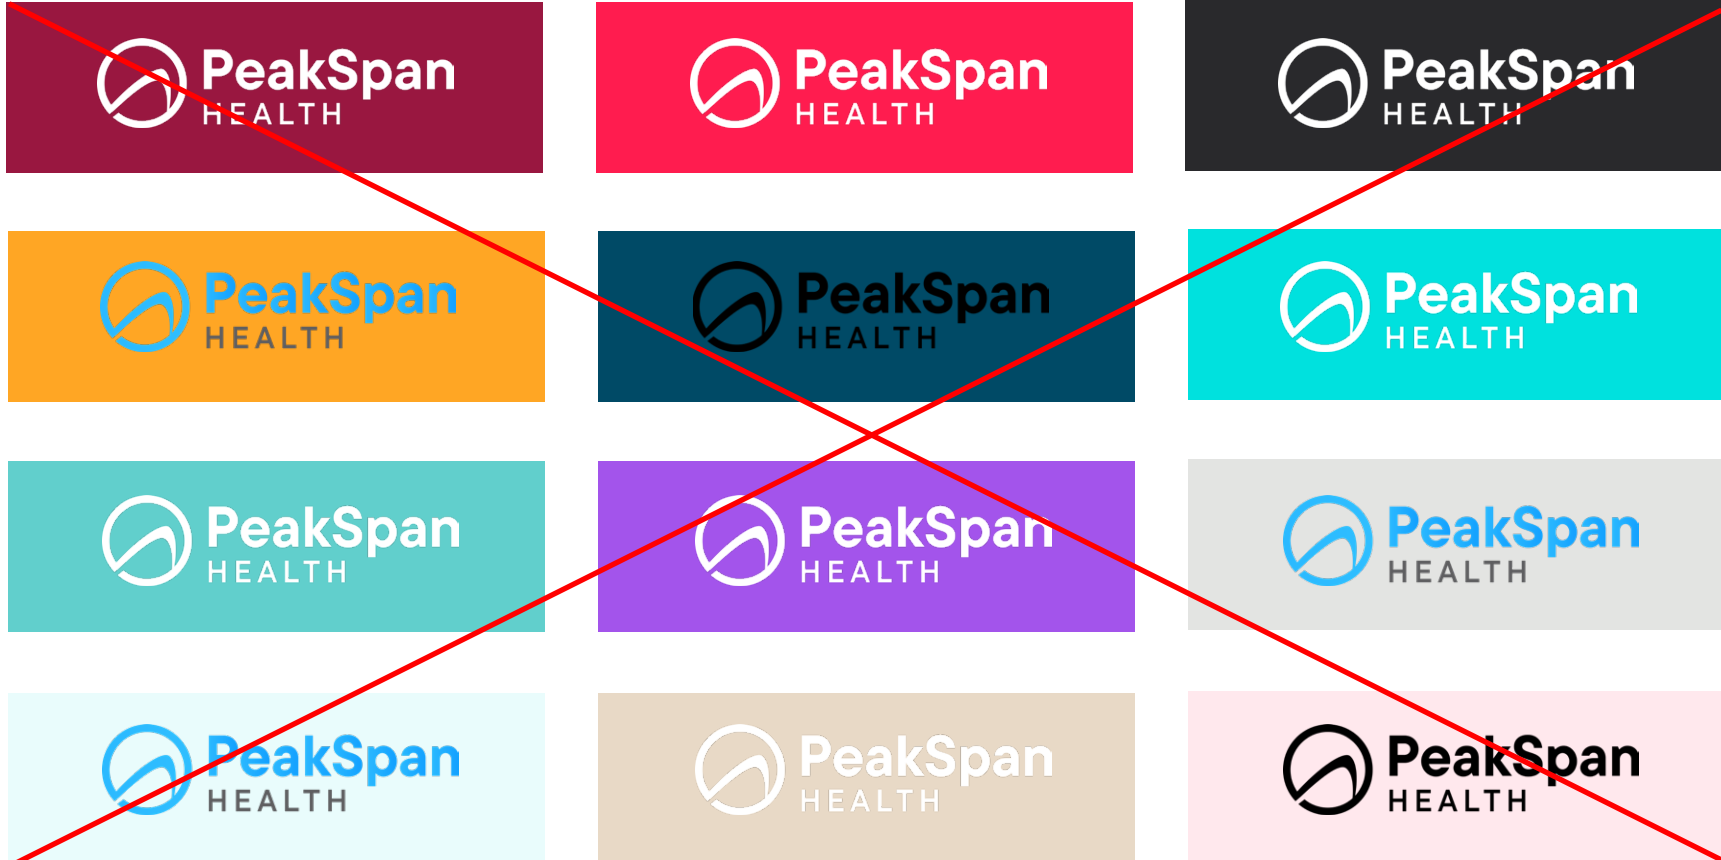

AVOID: Overly warm tones, neon brights

WARNING!
This document has been printed digitally and therefore the colours on these pages may not be an accurate representation. Please use the above color values for accurate colour matching.

4.1

LOGO ON COLOUR BACKGROUNDS

To preserve the integrity and visibility of the logo, it must always be placed on white or light neutral backgrounds. The logo should **NOT** be used on colored backgrounds, as this can compromise the clarity and consistency of the brand's signature blue tones.

4.2

+

-

**LOGO ON
POSITIVE &
NEGATIVE
SPACE**

5.0

IMAGERY & PRINTED COMMUNICATION

PeakSpan Health should always produce original and innovative advertising solutions. The imagery should be composed in a manner that it reflects the PeakSpan Health tone of voice.

- ▶ Bright, airy, high-resolution
- ▶ Colour-graded for brand cohesion (slightly cool temperature)
- ▶ Realistic photography of fit, healthy people aged 30-60
- ▶ Supplement with scientific visuals: clean line illustrations, subtle molecule renders, and tech-style infographics

Use images which incorporate real people and ideas that convey the essence of PeakSpan Health.

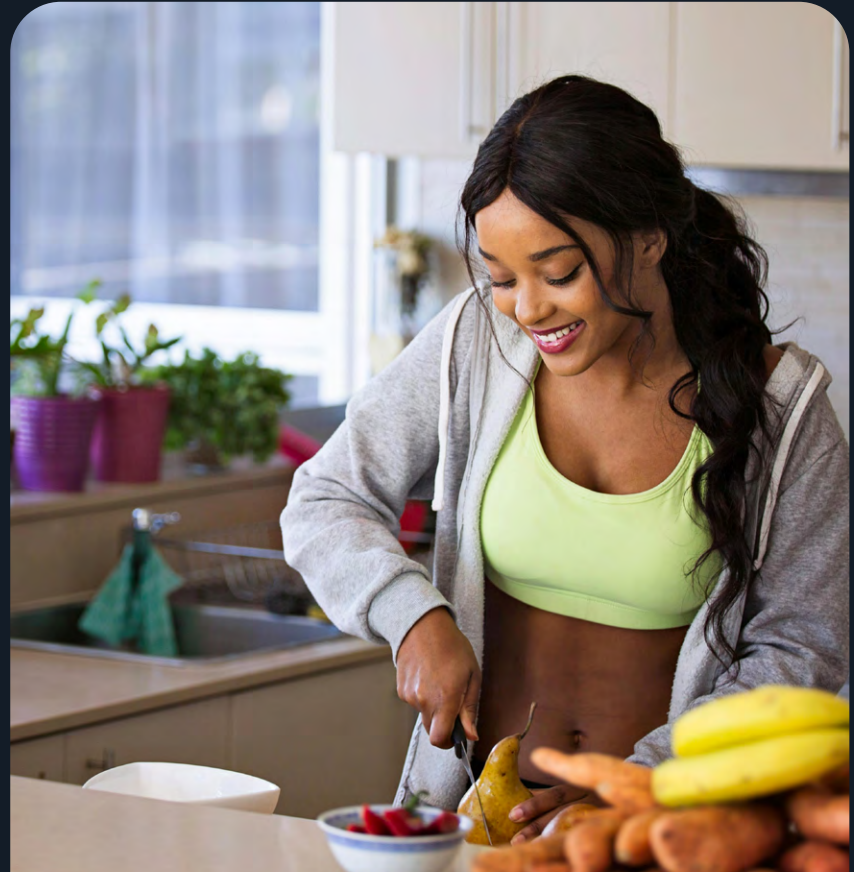

When commissioning artworks, the most important question is how the images are used. Whether they convey the message clearly. The use of the imagery dictates the type of photographer or illustrator you need to find.

Images should be at least 300DPI for printed and web artworks.

When adding text to posters and flyers, use white as the text color. No shadows should be used. Place text at the bottom left / top left corner of the image with standard spacing from the edges. Refer section 1.5 for positioning spacing.

If required, use an accent gold color gradient block behind text to contrast with the background.

Lorem ipsum
dolor sit amet,
consectetur
adipiscing elit.

Lorem ipsum dolor sit amet,
consectetur adipiscing elit.

5.1

ICONOGRAPHY

Our icon style is designed to complement the brand's clean and modern visual identity.

- ▶ Minimal line icons
- ▶ Rounded corners, stroke width 2px
- ▶ Use primary blue / teal for emphasis

6.0

COPY & MESSAGING RULES

Tagline: The Future of Human Performance

Key Messaging Pillars

- ▶ **Performance** – Achieve your physical and mental peak
- ▶ **Precision** – Data-led, science-backed solutions
- ▶ **Longevity** – Extend your healthy lifespan
- ▶ **Technology** – AI-driven, personalised programs
- ▶ **Trust** – Compounded in Australia, compliant, and ethical

Elevator Pitch

PeakSpan Health is Australia's clinical and AI-driven performance clinic. We integrate your biomarkers, lab data, and wearable tech to create a personalised plan – including peptides, hormones, nutrition, and coaching – so you can perform at your best and extend your healthspan.

Copy Rules

- ▶ Avoid hype (“miracle,” “life-changing overnight”)
- ▶ Avoid casual slang (“get shredded,” “smash goals”)
- ▶ Use medically accurate, benefit-driven phrasing (“supports,” “optimises,” “may help”)
- ▶ Never make unproven claims; focus on measurable outcomes and supported science
- ▶ Always write in clear, confident, active voice

6.1

DO / DON'T EXAMPLES

DO:

- ▶ “Optimises recovery and supports healthy muscle function.”
- ▶ “AI-driven recommendations based on your biomarkers.”
- ▶ “Compounded in Australia under strict quality control.”

DON'T:

- ▶ “Get shredded fast.”
- ▶ “Guaranteed to reverse ageing.”
- ▶ “The best peptides in Australia.”

6.2 COMPLIANCE & RESTRICTIONS

TGA Compliance:

No direct advertising of prescription-only medicines (including peptides, hormones) to the public. Education-only approach until post-consultation.

Language:

Avoid promising specific medical outcomes; frame as support/optimisation.

Imagery:

Use models or licensed stock; no real patient imagery without signed consent.

7.0 **SAMPLE APPLICATIONS**

The following examples show how the basic elements are applied across PeakSpan Health's pre-printed stationery materials and merchandise. Stationery for internal purposes and formal documentations are presented on a white background. For an example; Letterhead, Information side of Business card and Envelopes. Stationery and merchandise for external uses are presented in the primary accent blue.

PRINT & ENVIRONMENTAL ASSETS

Our logo plays a vital role in representing the brand across all printed communications. Whether on brochures, stationery, marketing collateral, or large-format signage, consistent application ensures a professional and recognizable identity.

► **Brochures & Marketing Materials:**

Use the primary full-color logo on white or light backgrounds for maximum clarity. Monochrome versions may be used where color printing is limited.

► **Stationery & Business Collateral:**

Maintain ample clear space to preserve legibility at smaller sizes.

► **Signage & Large Format:**

Always use vector formats (AI/EPS/PDF) to ensure sharp reproduction at any scale.

SOCIAL MEDIA (INSTAGRAM)

Our social media presence reflects the brand's personality and visual identity. All post designs should follow a clean and minimalistic style to ensure content is easy to read, visually appealing, and consistent with the overall brand look.

The Future of Human Performance

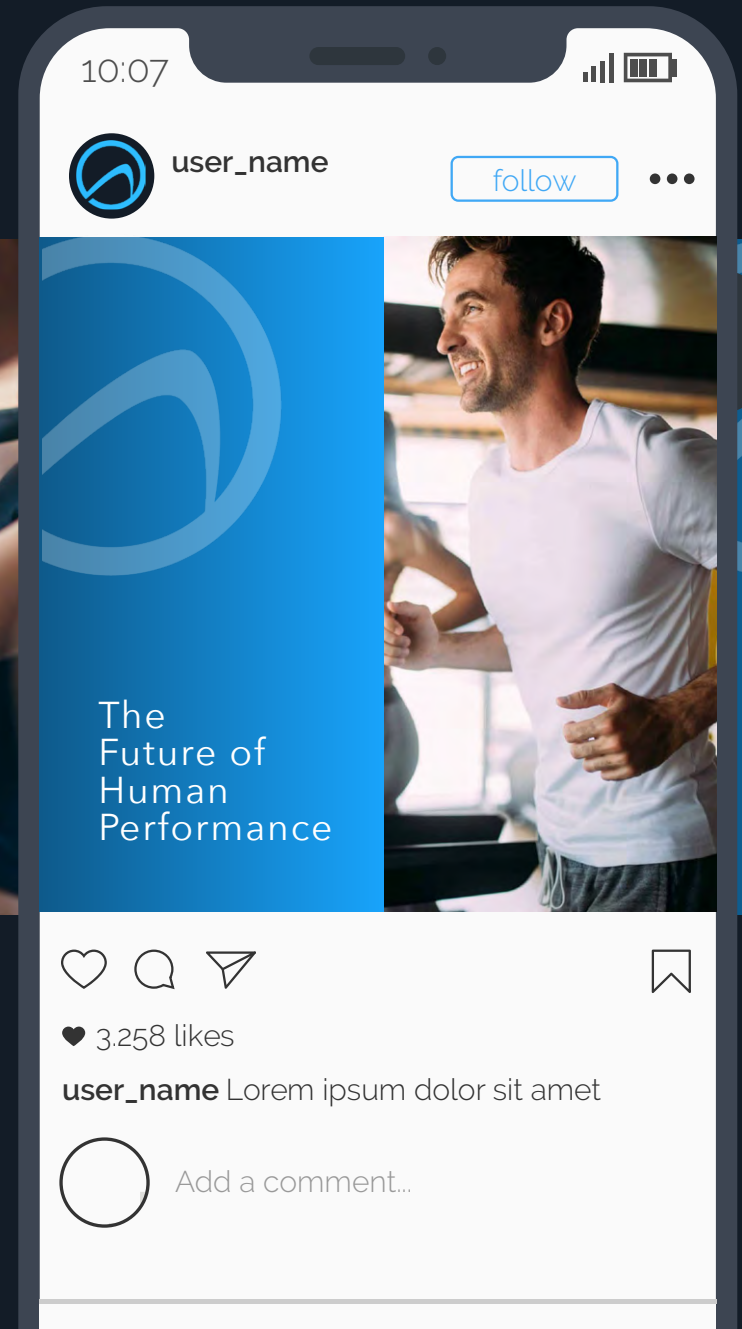

The Future of Human Performance

► Design Style

Keep layouts uncluttered with balanced use of imagery, typography, and negative space.

► Imagery

Use high-quality visuals that align with the brand tone—professional, approachable, and modern.

WEBSITE

Our website is a key touchpoint for communicating the brand online. The layout should be clean, intuitive, and minimalistic, ensuring that content is easy to navigate while maintaining a strong visual connection to the brand identity.

Design Style:

Use a simple, uncluttered structure with plenty of space to create clarity and focus.

Brand Colors:

Incorporate blue / teal accents strategically for headings, CTA buttons, and interactive elements to reinforce the brand theme.

Typography:

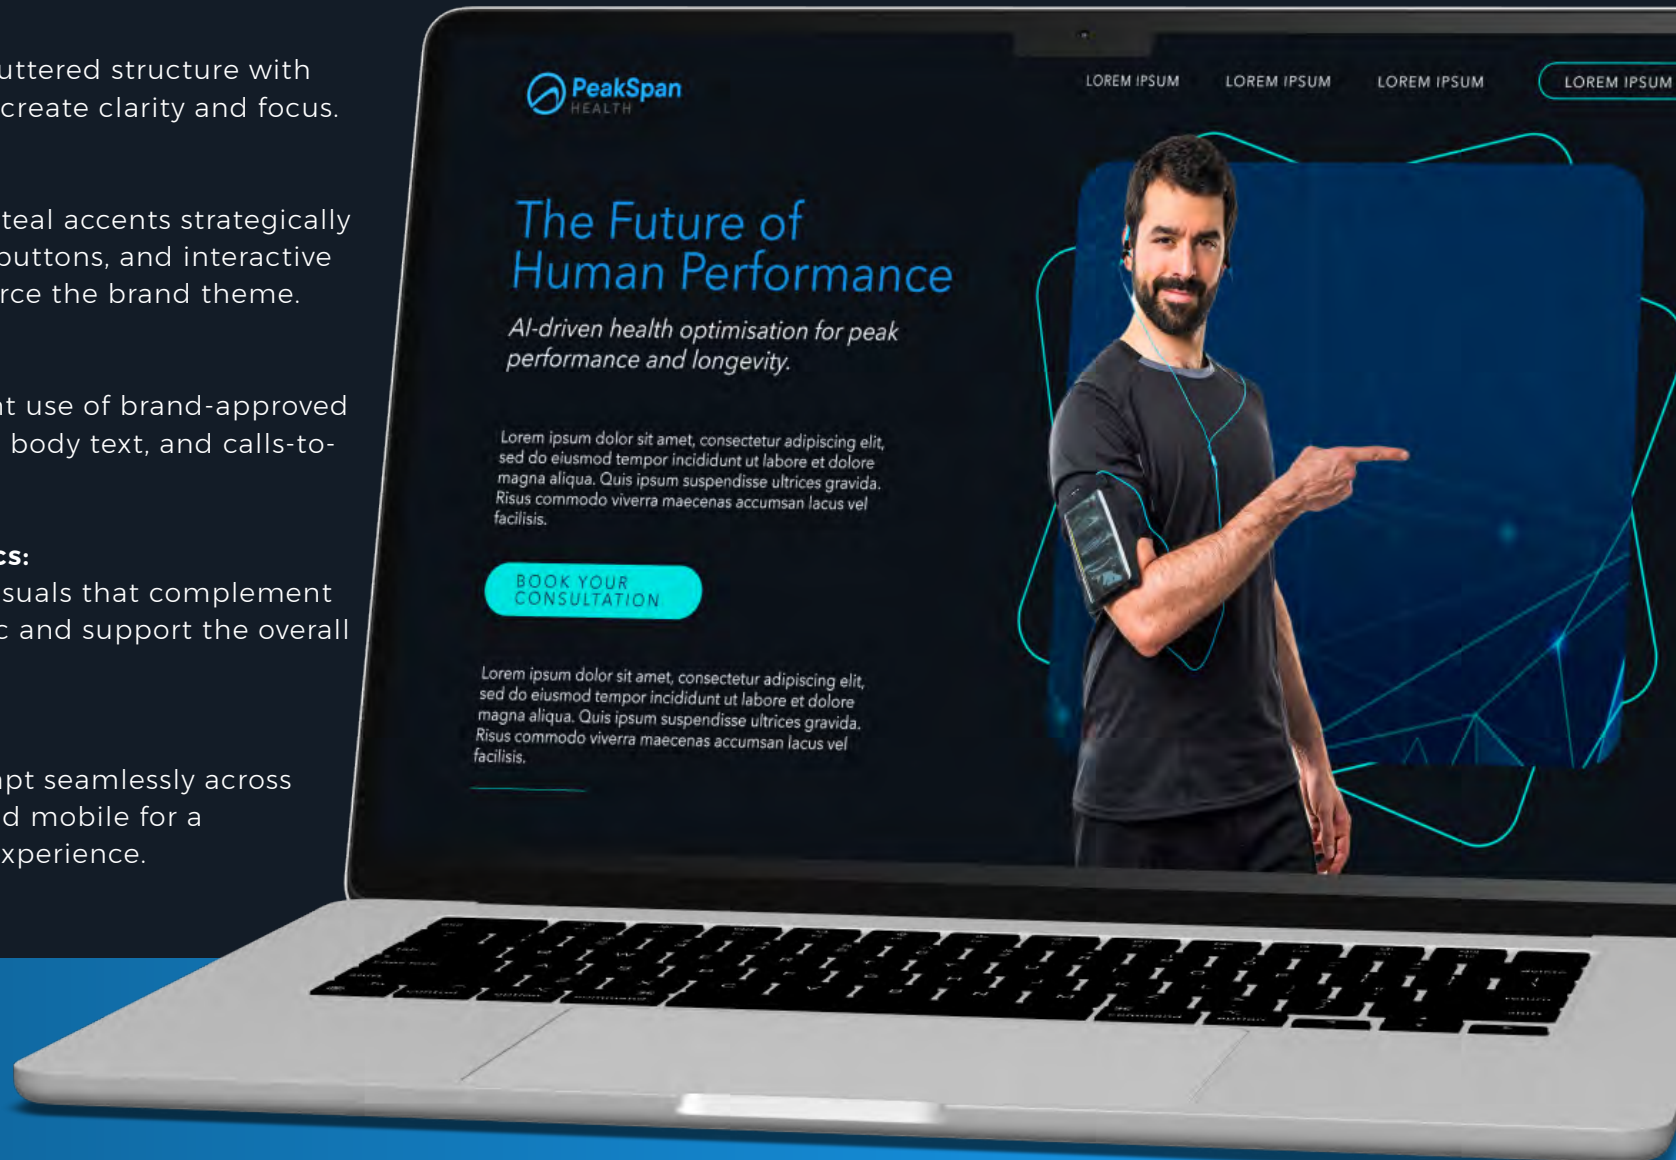

Maintain consistent use of brand-approved fonts for headings, body text, and calls-to-action.

Imagery & Graphics:

Use high-quality visuals that complement the clean aesthetic and support the overall message.

Responsiveness:

Ensure layouts adapt seamlessly across desktop, tablet, and mobile for a consistent brand experience.
